Operational

2022

Solis

Located on a total area of 6.0 ha, this power plant operates under the feed-in tariff scheme with a guaranteed power purchase agreement until 2041.

Status: **Operational**Capacity: **4.6 MW**Annual Generation: **7,300 MWh**Annual CO₂ Savings: **3,200 tons**Location: **Partizak, Aragatsotn**

Operational

2022

Enteria

Located on a total area of 2.5 ha, this power plant operates under the feed-in tariff scheme with a guaranteed power purchase agreement until 2040.

Status: **Operational**Capacity: **2.2 MW**Annual Generation: **3,400 MWh**Annual CO₂ Savings: **1,500 tons**Location: **Shoghakat, Gegharkunik**

Our impact in numbers

◆ Installed capacity

39.4 MW

One of the largest solar portfolios in Armenia.

◆ Annual generation

63,750 MWh

Electricity generated and delivered to the national grid across the year.

◆ CO₂ savings

27,750 tonnes p.a.

◆ Households

23,500
